Accelerate your Project Management Career with a Globally-recognised Credential

The Importance of PMP Exam Prep Training

Fast-paced work environments and competitive markets have created a critical and huge demand for project managers who can successfully deliver a project from start to finish. Awarded by the Project Management Institute (PMI)[®], Project Management Professional (PMP)[®] is a globally-recognised credential that has been valued by industries and renowned companies all over the world for over 30 years.

Advantage of PMP Certification

Certifies your talent:

The PMP credential is proof that a project manager has the experience and skills to make a project successful.

Improves your earning prospects:

Professionals with PMP credentials usually see better salary hikes than their non-certified counterparts.

Opens doors:

A PMP credential can get you access to globally renowned companies of your choice.

Applies everywhere:

Since PMP certification isn't based on a specific methodology, the concepts and techniques can be adapted to any real-world challenge in project management, across industries, market segments and geographies.

Encourages learning:

In order to maintain your PMP credential, you will have to keep yourself abreast of best practices in the domain of project management. PMI also keeps its credential relevant by continually updating its programs.

Eligibility Criteria for PMP Certification Exam

The PMP credential is ideal for project managers across industries, who are looking for steady growth in their careers. The certification training course will impart valuable knowledge and skills in project management that will set you apart from your colleagues and improve your earning prospects. As per PMI, the eligibility criteria to apply for the PMP certification exam are:

Option 1

Secondary degree (high school diploma, associate's degree, or the global equivalent)

+

Five years of project management experience, with 7,500 hours leading and directing projects

+

35 hours of project management education

or

Option 2

A four-year degree (bachelor's degree or the global equivalent)

+

At least three years of project management experience, with 4,500 hours leading and directing projects

+

35 hours of project management education

Did You Know?

- 80% of high-performing projects use a credentialed project manager
- 77% of high-performing organisations have ongoing project manager training in place
- High-performing organisations with project management guidance lose 12 times less money than low performers (US\$20 million versus US\$230 million for every US\$1 billion spent on projects).
